Quality Policy

The quality policy of **MÁLAGA AEROSPACE, DEFENSE AND ELECTRONICS SYSTEMS, S.A. (MADES)**, is to be a leader in electronic manufacturing services, integration of electromechanical systems, and provide our customers with a complete solution:

- ✓ From planning, parts purchasing, process development, prototypes, pre-series and series manufacturing, testing, including environmental stress screening ones, final testing and support in the product life cycle,
- ✓ Until delivery, within the committed time frame, anywhere in the world.

Our vision is to strengthen our position of high reliability services, for our objective markets, through the use of state-of-the-art technology, and “Mission Assurance” processes, to ensure the complete success of the programs.

By the foregoing, **MADES**, acquires the following commitments:

- Continue to be a customer-focused company, based on fulfilment of requirements and commitments acquired, with the goal to exceed expectations of customers, employees, society, shareholders and rest of interested parties.
- Be the best valued electronic systems supplier, for defense, aerospace, industrial, automotive and medical markets, through the best professionals and the latest technology.
- Comply with statutory and regulatory requirements.
- Promote the responsibility of everyone in quality, productivity, environmental protection and the safety of employees and the products.
- Use the Six Sigma methodology to continuously improve quality management, product, cost and technology, pursuing excellence.
- Maintain an ethical and moral conduct at all times.
